

Dipesh Joshi

KEY SKILLS

React & React Native
UI/UX Designing
NodeJS (Express)
Machine Learning

ADDITIONAL SKILLS

Typescript ☆☆☆
HTML/CSS ☆☆☆
Flutter ☆☆
MongoDB ☆☆
MySQL ☆☆☆
Keras ☆

ACTIVE PROJECTS

IOT AdBlocker (PiHole)
3D Mockup UI Elements

EDUCATION

Master of Computer Applications 9.20*
University of Delhi
BSc (H) Mathematics 8.27
University of Delhi
AISSCE - CBSE (Class 12) 96%

PROJECTS

Drivey Parking FullStack (Internship 2020-21)

REST, React-Native, Figma, Typescript

- Initially, I worked at the backend with Typescript on NodeJS (Express) and MongoDB, creating API routes for Admin & Profile management.
- From March 2021, I shifted to frontend and created the Mobile Application for Vehicle owners, based on React Native and designed the UI in a team of two.
- The production application is now available on [PlayStore](#).

Weather App with React Native & Figma

Redux, React-Native, Glassmorphism UI

- The application UI is based on Glassmorphism style and provides the entire overview of location based weather powered by OpenWeatherMap.org.

Travel UI (Web+Mobile) with Flutter & Figma

Scalable UI, All Screen Sizes & Platforms

- TravMing is a UI concept of multiple Travel & Tourism related services designed for web (responsive) and mobile (flutter).
- The landing page allows users to select accommodations in various locations with a beautiful and easy to use interface.

Home-Decor Website with Next.JS

NextJS(React), Redux, CDN

- 4-Runners: The landing for an online furniture store designed in figma and implemented in NextJS.
- The idea is to create an elaborate and classic interface for customers to choose the best for their Homes.
